### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vineet Kohli on June 27, 2005.

The application has been amended as follows:

#### IN THE CLAIMS:

1. (Amended) An isolated DNA comprising a nucleotide nucleotides sequence encoding a polypeptide having an amino acid sequence selected from the group consisting of SEQ ID NO:3, SEQ ID NO:5, and SEQ ID NO:29.

The following is an examiner's statement of reasons for allowance: A thorough search of the sequence databases and prior art did not reveal a sequence identical to those presently claimed. The present Specification provides some evidence of an association between the claimed DNA and Macular Dystrophy therefore, the claimed DNA molecules could be used to further the understanding of this disease.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1656
